- True
- False

Global warming is causing the sea level to rise:

- True
- False

Fossil fuels are renewable fuels:

- True
- False

What does the symbol CO₂ stand for?

- Water
- Carbon dioxide

Which is the smallest?

- An ant
- An atom
- A microbe

Which is the biggest?

- An ant
- An atom
- A microbe

What is smog?

- Smoke mixed with fog
- A type of cat

What does the symbol HO_2 stand for?

- Hydrogen
- Water

Plants can make sugar from sunlight, water and carbon dioxide:

- True
- False

Name something which is produced when we burn fossil fuels?

- Pollution
- Smoke
- Carbon dioxide
- Smoke
- Heat
- Carbon monoxide

What are fossil fuels made from?

- Dead animals and/or plants from a long time ago
- The remains of living things from long ago
- Compressed remains of living things from long ago
